SUMMARY

AWS Certified Solutions Architect with 10+ years designing, operating, and optimizing secure cloud infrastructure across AWS and Azure for U.S. enterprise clients spanning trade finance, M&A platform integration, ESG analytics, and blockchain systems. Track record includes zero-downtime migrations (400TB+ dataset), 35-50% reductions in incident resolution time and downtime, and 30% cost savings through FinOps practices. Complements cloud expertise with full-stack mobile development (React Native, Flutter) shipped end-to-end to production. Experienced collaborating daily with Canada-based engineering and product teams.

TECHNICAL SKILLS

Cloud Platforms: AWS (EC2, Lambda, ECS/EKS, RDS, DynamoDB, S3, CloudFront, VPC, IAM, API Gateway), Microsoft Azure
Infrastructure & DevOps: Terraform, CloudFormation, AWS CDK, Docker, Kubernetes, CI/CD (CodePipeline, CircleCI, Jenkins, GitHub Actions)
Security & Compliance: IAM least-privilege, KMS, WAF, AWS Well-Architected Framework, CIS Standards, MSP audit readiness
Monitoring & FinOps: CloudWatch, X-Ray, CloudTrail, Reserved Instances/Savings Plans, S3 lifecycle & tagging governance
Languages & Frameworks: Python (boto3, FastAPI), Node.js, JavaScript/TypeScript, Dart, Shell Scripting
Mobile & Full-Stack: React Native (Expo), Flutter, REST APIs, Auth0, AWS Cognito, Google Play Console

PROFESSIONAL EXPERIENCE

AWS Solutions Architect & Mobile Application

Sept 2024 – Present

Smart Krow Technology Solutions Pvt. Ltd. | Hyderabad, India

- Designed end-to-end multi-account AWS architectures and led on-prem-to-AWS migrations with zero downtime, using structured cutover plans and automated rollback safeguards.
- Ran AWS Well-Architected Framework reviews and built multi-region DR architectures with automated failover, cutting RTO/RPO targets by 40%.
- Automated cloud operations with Python (boto3) and enforced governance (IAM, SCPs, tagging) across AWS Organizations. Cut incident resolution time 35% via CloudWatch/X-Ray observability.
- Built and shipped React Native (Expo) and Flutter mobile apps end-to-end — from development through signed APK/AAB builds to Google Play Store production release.
- Developed Python/FastAPI backend services on AWS Lambda handling JWT/OAuth2 auth flows, integrated with Auth0 and AWS Cognito; mentored junior engineers on architecture reviews.

Senior Cloud Operations Engineer

Dec 2018 – Sept 2024

Innova Solutions — Deployed to TradeSun, Multilateral, Coriolis ESG & CRC Scrap Sales (USA) | Remote | Cross-border collaboration with Canadian team members

TradeSun, USA — AI-Powered Trade Finance Platform | Dec 2020 – Sept 2024

- Engineered serverless APIs (Node.js, Lambda, API Gateway, DynamoDB) for high-volume trade finance document processing; built automated RCA workflows (EventBridge, Bedrock) cutting MTTR for production incidents and led FinOps/security audit initiatives supporting AWS MSP audit readiness.

Multilateral by TradeSun, USA — AWS Integration & Large-Scale Data Migration | Dec 2022 – Sept 2024

- Led end-to-end onboarding of an acquired platform into TradeSun's AWS environment, including a 400TB+ PostgreSQL migration to RDS with zero data loss and a cost-optimized S3/Glacier Deep Archive backup strategy.

Coriolis ESG by TradeSun, USA — ESG Scoring & Analytics Platform | Dec 2021 – Sept 2024

- Built Azure resiliency architecture with geo-replication for an ESG analytics platform serving international financial clients, reducing downtime incidents 50% and cloud costs 30%.

CRC Scrap Sales, USA — Blockchain Smart Contract System | Dec 2018 – Aug 2019

- Developed Hyperledger Fabric smart contracts and Loopback Node.js services to automate vendor bidding and scrap sales workflows, improving transparency and reducing manual intervention.

Cloud Engineer & Cloud System Administrator

Sept 2016 – Dec 2018

3x3Conect & Fingo Shop | Hyderabad, India

- Administered AWS and Azure cloud environments for e-commerce (Magento/Nginx) and consumer mobile platforms — provisioning, backups, uptime monitoring, and Active Directory/access control.

EDUCATION & CERTIFICATIONS

Bachelor of Technology, Mechanical Engineering — Jawaharlal Nehru Technological University, Kakinada (JNTUK), 2016

AWS Certified Solutions Architect – Associate — Amazon Web Services, Issued Aug 2023, Expires Aug 2026
